PROFESSIONAL SUMMARY

Analytical and detail-oriented Data Scientist with strong foundational knowledge in statistical modeling, machine learning, and predictive analytics. Experienced in leveraging Python, SQL, and data visualization tools to translate complex datasets into actionable business insights. Adept at handling end-to-end data pipelines, exploratory data analysis (EDA), and deploying statistical models to solve real-world problems.

CORE SKILLS

- **Languages:** Python (Pandas, NumPy, Scikit-Learn), R, SQL (PostgreSQL, MySQL).
- **Data Analysis & ML:** Regression, Classification, Clustering, Time Series Forecasting, Hypothesis Testing, A/B Testing.
- **Visualization Tools:** Tableau, Power BI, Matplotlib, Seaborn.
- **Data Tools & Cloud:** Git, Docker, Apache Spark, AWS S3.

WORK EXPERIENCE

Data Science Intern | Analytics Quotient, Bengaluru

May 2025 – Dec 2025

- Conducted exploratory data analysis on a dataset of 500k+ customer records, identifying 3 key churn indicators and improving retention strategies.
- Built and optimized a random forest classification model that predicted customer churn with an 89% accuracy rate.
- Designed interactive executive dashboards in Tableau, reducing weekly manual reporting time for the management team by 12 hours.
- Cleaned and preprocessed unstructured behavioral data using Python and SQL queries, resolving 95%+ data anomaly errors.

PROJECTS

E-Commerce Demand Forecasting Engine

- Developed an end-to-end time series forecasting system using ARIMA and XGBoost models to predict monthly product demand.
- Engineered custom features based on seasonal trends and historical promotional data, lowering forecasting error (MAPE) by 14%.
- Automated data extraction and transformation jobs via optimized SQL scripts.

Housing Price Prediction Model

- Implemented a multi-variable linear regression and gradient boosting architecture to predict real estate pricing trends.

- Utilized Scikit-Learn for feature scaling, one-hot encoding, and hyperparameter tuning using GridSearchCV.

EDUCATION

Bachelor of Technology in Computer Science & Engineering

Vellore Institute of Technology (VIT), Vellore | *Graduation: May 2026*

- **CGPA:** 8.8 / 10.0

CERTIFICATIONS

- Google Advanced Data Analytics Professional Certificate (2025)
- IBM Data Science Professional Certificate (2024)

ACHIEVEMENTS

- Secured 3rd Rank out of 250+ teams in the Inter-College Data Hackathon (2025).
-
